MR. RICHARD REID: I am Richard Reid from here in  
10 Elko. My thought is I looked at the proposed rail routes  
11 on the web site. And I have noticed there is a -- well, a  
12 significant omission from the possible routes; that is, the  
13 old Eureka-Palisade railroad, going from Palisade, where it  
14 joins the Union Pacific, down through Pine Valley.

15       Then it would probably -- you would have to  
16 cut across the pass, join up with one of the other routes  
17 that has been proposed.

18       From my -- from what I have seen, that railway  
19 is fairly well in tact, as in all it takes is a little  
20 grading to -- then new bridges, and so on, to actually  
21 build it.
